

Hôpital général juif  
Jewish General Hospital

***Assistant Professor (Clinical), Department of Medicine, Division of Rheumatology (C-210819)***

---

Faculty of Medicine and Health Sciences, Department of Medicine, Division of Rheumatology,  
Jewish General Hospital

---

**Position Description**

The Department of Medicine of McGill University invites applications for a full-time position as a member of the Contract Academic Staff (Clinical) as a Clinician-Scientist at the rank of Assistant Professor. This position does not confer eligibility for tenure.

The successful candidate will also be appointed to clinical practice in the Department of Medicine, Division of Rheumatology at the Jewish General Hospital (JGH). The candidate must be interested in pursuing an academic, research-intensive career. Candidates with expertise in immune-related adverse events caused by immunomodulatory therapies used in Oncology are particularly encouraged to apply. The position is expected to begin in January 2022.

The Department of Medicine is a leader in academic medicine, and our educational and research missions support excellent and innovative clinical programs across our teaching hospitals. The Jewish General Hospital (JGH) is one of McGill's major teaching hospitals affiliated with the Faculty of Medicine and Health Sciences at Canada's internationally renowned McGill University, located in the vibrant and multicultural city of Montreal, in the province of Quebec.

The Division of Rheumatology of the JGH has an international reputation for its outstanding research programs and for its collaborative high-level multispecialty care of patients with complex systemic autoimmune rheumatic diseases. Programs with clinical care and research integration are promoted, with active programs currently in the fields of Scleroderma, Inflammatory Myopathies, and Immune Related Adverse Events caused by Immunomodulatory drugs used in Oncology (irAE).

**Job Duties**

Please see the Department of Medicine (DOM) website for [McGill DOM career path definitions](#). Our career path definitions specify typical ranges of time allotted to clinical work, teaching (clinical and didactic), research and administration.

As a Clinician-Scientist, the candidate will be expected to develop and maintain an independent and productive research program. The research program is expected to attract external peer reviewed funding (e.g. Canadian Institutes of Health Research and the Fonds de Recherche Québec—Santé). Internal startup funding, including a research stipend for protected research time and operating funds, may be available on a competitive basis to a suitable candidate.

The candidate will provide clinical services including rotation on the in-patient consultation service as well as out-patient services.

---

Candidates are expected to be actively involved in all aspects of McGill's academic mission and will be expected to demonstrate a commitment to equity, diversity and inclusion in these activities. McGill faculty members are expected to contribute to service activities within their units, the University, and the wider scholarly community.

### **Qualifications and Education Requirements**

- Candidates must hold an MD degree and must have completed specialty training in Internal Medicine, followed by subspecialty training in Rheumatology;
- Candidates must be certified by the Royal College of Physicians and Surgeons of Canada (or equivalent) and be eligible for licensure in Quebec and certification by the Collège des médecins du Québec;
- Candidates must have completed advanced graduate training (i.e., MSc or PhD degree) and possess or be committed to extra-mural post-doctoral fellowship training relevant to irAE;
- Candidates must demonstrate a high level of scientific productivity, evidenced by recent publications, success in funding, and/or distinction awards.
- All candidates must be fluent in English with a working knowledge of French.

---

*McGill University is committed to equity and diversity within its community and values academic rigour and excellence. We welcome and encourage applications from racialized persons/visible minorities, women, Indigenous persons, persons with disabilities, ethnic minorities, and persons of minority sexual orientations and gender identities, as well as from all qualified candidates with the skills and knowledge to engage productively with diverse communities.*

*At McGill, research that reflects diverse intellectual traditions, methodologies, and modes of dissemination and translation is valued and encouraged. Candidates are invited to demonstrate their research impact both within and across academic disciplines and in other sectors, such as government, communities, or industry.*

*McGill further recognizes and fairly considers the impact of leaves (e.g., family care or health-related) that may contribute to career interruptions or slowdowns. Candidates are encouraged to signal any leave that affected productivity, or that may have had an effect on their career path. This information will be considered to ensure the equitable assessment of the candidate's record.*

*McGill implements an employment equity program and encourages members of designated equity groups to self-identify. It further seeks to ensure the equitable treatment and full inclusion of persons with disabilities by striving for the implementation of universal design principles transversally, across all facets of the University community, and through [accommodation policies and procedures](#). Persons with disabilities who anticipate needing accommodations for any part of the application process may contact, in confidence, [accessibilityrequest.hr@mcgill.ca](mailto:accessibilityrequest.hr@mcgill.ca).*

*All qualified applicants are encouraged to apply; however, in accordance with Canadian immigration requirements, Canadians and permanent residents will be given priority.*
